FOR IMMEDIATE RELEASE

COMMON CENTS SYSTEMS COMPLETES UPGRADE OF ERIE COUNTY (NEW YORK) PUBLIC HEALTH LABORATORY

Nashville based Common Cents Systems continues to solidify its presence in the Public Health Laboratory market

Nashville, TN., October 29, 2008 – Common Cents Systems, Inc. is pleased to announce that Erie County (New York) Public Health Laboratory has chosen M/Lab Enterprise Edition LIMS to upgrade their existing laboratory information management system. The contract award further enhances Common Cents System’s position as a growing provider of LIMS to public health laboratories.

Rob Ringenberg, CEO of Nashville, TN based Common Cents Systems commented on the upgrade project stating that “the company is very pleased with the upgrade process. With the assistance of the excellent staff at Erie County the upgrade process went very smoothly. The technology used by M/LAB Enterprise Edition will be very advantageous to the laboratory in dropping operating costs and increasing the efficiency. The laboratory will also appreciate the amount of flexibility that M/LAB EE has for configuration and implementation”.

MLAB Enterprise Edition offers more out of the box flexibility than other competitive LIMS in the market place. With many of the features that other vendors consider “add-ons”, the seamless integration in MLAB Enterprise Edition allows the technical lab staff to concentrate on the quality of testing while utilizing the streamlined workflow to improve result turnaround time and decrease cost.

About Erie County Public Health Laboratory

The Erie County Public Health (ECPHL) Laboratories has served the residents of Western New York for over six decades. ECPHL provides public health and environmental laboratory services to local health departments, hospitals, medical care providers, managed care organizations, and residents throughout Western New York. ECPHL serves as the primary provider of laboratory testing for the Erie County Health Department's and other local health department's public health and environmental activities.

About Common Cents Systems

Founded in 1987, Common Cents Systems, Inc. is a privately held corporation that serves the healthcare community as a developer of commercial Laboratory Information Management Systems (LIMS). Common Cents Systems has spent the last 19 years successfully partnering with laboratories and clinics across the United States and the Caribbean. In 2006 Common Cents Systems, Inc. acquired M/Mgmt Systems, Inc. (a California Corporation located in Sacramento). The acquisition of M/Mgmt by Common Cents Systems offers a unique opportunity for both companies and to their customers. Common Cents Systems operates offices in Nashville, TN and Sacramento, CA.
